— THE AI PROMPT PACK

THE AI PROMPT PACK

The prompts that make AI sound like you, not a robot.

USE AI TO THINK, NOT JUST TYPE.

Everyone uses AI to write. Almost nobody uses it to think, and that is the whole gap. Paste these, swap the brackets, and give it context before you ask.

01 • FIND YOUR BRAND VOICE

Here are my last 10 captions. In three words, what does my brand voice sound like, and where am I confusing people? [paste captions]

02 • MATCH YOUR VOICE

Match the exact tone of these three things I wrote, then write me 30 captions in that same voice. [paste your writing]

03 • ONE VIDEO INTO A WEEK

Here is a transcript of a two minute video. Give me 5 hooks, 3 carousel outlines, and 7 captions in my voice. [paste transcript]

04 • HOOKS THAT STOP THE SCROLL

Give me 15 scroll stopping first lines for a post about [topic], written for [audience]. No clickbait, no fluff.

05 • THE OBJECTION KILLER

My offer is [offer]. List the top 7 objections a buyer has, and a one line answer to each.

06 • FEATURE INTO BENEFIT

Rewrite these features as benefits my customer actually cares about, in plain language. [paste features]

07 • THE CONTENT AUDIT

Here are 10 of my posts. What is my one repeating message, and what does my audience need that I am not saying? [paste posts]

08 • THE ONE SENTENCE PITCH

Explain my offer in one sentence a busy person instantly understands. Here is what I do. [paste description]

The tip: cold prompts get robot answers. Give it your real material first, then ask the question. Context is the whole trick.
